- F** D'éventuelles irrégularités de surface sur le dessous de votre sol n'empêchent pas une installation conforme aux préconisations de pose. La colle (polyuréthane ou MS polymère) comblera facilement ces manques lors du collage.
- GB** Any surface irregularities on the underside of the floor have no influence on the installation according to the installation recommendations. The adhesive (polyurethane or MS polymer) compensates for these unevenness when bonding the feet off without any problems.
- E** Posibles irregularidades de la superficie en la parte inferior del suelo no impida la instalación de acuerdo con las recomendaciones de instalación. El adhesivo (poliuretano o polímero MS) rellenará fácilmente estos huecos al pegar los pies.
- I** Eventuali irregolarità della superficie nella parte sotto del pavimento non impediscono l'installazione in base alle raccomandazioni di montaggio. La colla (poliuretano o MS polimero) riempirà facilmente queste lacuna quando si incollano i piedini.
- NL** Eventuele onregelmatigheden in de vlakke onderzijde van uw vloer vormen geen belemmering voor een installatie conform aan de gestelde richtlijnen. De lijm (polyurethaan of MS-polymeer) vult eventuele openingen makkelijk op tijdens het lijmen.
- D** Eventuelle Unregelmäßigkeiten der Oberfläche an der Unterseite Ihres Bodens haben keinen Einfluss auf die Installation gemäß den Einbauempfehlungen. Der Klebstoff (Polyurethan oder MS-Polymer) gleicht diese Unebenheiten beim Verkleben problemlos aus.

F Aspirer le dessous de votre sol avant la pose

GB Vacuum the bottom of the floor before installation

E Aspirar la parte inferior de su suelo antes de instalarlo

I Aspirare la parte sottostante del pavimento prima dell'installazione

NL Stofzuig de bodem van de vloer voor de installatie

D Saugen Sie den Boden des Bodens vor der Installation ab

- Verificar la verticalidad de la cabina, y bloquear
- Assicurarsi che la doccia è di livello, e bloccare
- Controleer of de douchecabine goed recht staat, en blokkeer
- Prüfen, ob die Kabine lotrecht steht, anschließend blockieren

The diagram is enclosed in a rectangular border and is divided into two main sections. The top section shows a perspective view of a lighting fixture being inserted into a track. A small component labeled 'PP' is shown being pushed into the fixture. The track is labeled with a triangle containing 'I', a circle containing 'AQ', and the length '903mm'. The bottom section shows a side view of the fixture with a warning triangle (a triangle with an exclamation mark) above it. Below the side view is a list of mounting directions in multiple languages.
